

Job Ad for Group Financial Controller (Part-time)

About Us

Atlantis Healthcare is a leading global healthcare marketing agency working with top brands both locally and internationally. We are highly regarded for our strategic work supporting people living with chronic illnesses. Our multi-disciplinary teams include account services, creative, strategy, clinical, IT and digital, as well as operations.

About the role

Atlantis Healthcare is looking for an experienced Group Financial Controller (Part-time) reporting to the Group Finance Director. This is a key role within the Group Finance team managing all aspects of the reporting and planning processes across the Group. The role requires a solid technical knowledge, balanced with strong business partnering and people management experience.

As a finance team, we are committed to supporting business decisions by telling the story behind the numbers. Therefore, commercial acumen, great people skills and a genuine interest in the business will be critical for success in this role. Our environment is dynamic, and we strive for continuous improvement, so we are looking for someone that can think outside the square and deliver solutions.

The role is part-time, approx. 30 hours per week, and the working hours are flexible to accommodate for the requirement for communication with overseas markets outside of NZ business hours.

About you

To be successful in this role, you will have experience in a leadership role in a small to medium organisation and with exposure to organisations that trade in international markets. A highly experienced and skilled Chartered Accountant, you will ideally have experience working with a senior leadership team and in alignment with the Board of Directors.

Collaborative in style, you will understand the value in working closely with your colleagues to provide comprehensive financial results and support to the business. Committed to excellence in what you do and for your team; you will have an eye for detail, a passion for learning and real drive to succeed.

Capabilities & Qualifications Required

- CA/CPA Qualified with technical accounting expertise
- Previous Big4 Audit experience (Preferred)
- Strong Stakeholder Engagement across a wider business
- Previous experience implementing KPI's and IFRS compliance
- An engaging and commercially driven leader
- Commercial experience partnering with non-financial teams
- Proven experience driving forecasting/budgeting processes
- Advanced Excel capability with some modelling experience preferred
- Ability to work out of business hours from time to time to allow communication with offices in Australia, UK, USA & Germany

This role needs a strong leader who can combine technical strength with an ability to lead business critical controls; taking accountability for delivering excellence in financial results. If you are up for the challenge and can hit the ground running, we would love to hear from you.
